1997 Price Catalog

How To Use This Catalog

Purchasing Example:

List number 3193-01 is packaged as 3 inner packs per case. There are 10 units in each inner pack. This item is packaged 30 units to the case. You will be purchasing full cases only. Price is reflective of 10 units. This was done so that your wholesaler can sell in quantities of inner packs (10 units) versus case packs (30 units). If your hospital requires less than case quantities the wholesaler will sell in inner packs.

YOUR ORDER WOULD BE 3 x 10's = 30 units
 6 x 10's = 60 units
 9 x 10's = 90 units

The shaded value is the "MULTIPLE OF" number for that item.

Please note that all items displayed with a shaded number 1 are priced and sold as full cases, not broken down to inner packs (see sample list number 4532-24).
